Croatian Biophysical Society &
Division for Marine and Environmental Research, Ruđer Bošković Institute

**5th June 2025, 9.30 a.m.,
III. Wing lecture room, Ruđer Bošković Institute, Zagreb**

Erasmus Internships: Bridging Biophysics, Environmental Studies, and More

Leon Van Heddeghem, Lara Vereecke, Ruby Van de Velde
HOGENT University of Applied Sciences and Arts, Gent, Belgium

Three young undergraduate students, Leon, Lara, and Ruby from HOGENT University of Applied Sciences and Arts, Belgium, spent four months at the Division for Marine and Environmental Research as part of the Erasmus+ student mobility and traineeship programme. Guided by their mentors Vlatka, Ana and Nadica, they explored a range of scientific activities. Join us to hear about their internship in Croatia, from laboratory work to fieldwork, and everything in between!
